Subject: Publication of Call for Applications - Seconded National Expert (SNE)

Your Excellency,

We would like to inform you that the European GNSS Agency (GSA) has published an open call for Seconded National Experts for the function of Special Body on Flight Keys (SB-FK) Coordinator.

The GSA is an agency of the European Union that is ruled by Regulation (EU) No. 912/2010 of 22 September 2010 as amended by Regulation (EU) No. 512/2014 of 16 April 2014 to manage the public interests relating to specific tasks of the European GNSS programmes. This year the GSA is assumed to become the European Union Space Programme Agency (EUSPA) and to expand the scope of its activities beyond Galileo and EGNOS, to other areas, such as Copernicus for Earth Observation, GOVSATCOM for Governmental Space Communications and Space Situational Awareness (SSA)¹.

The SNEs will be seconded for an initial period of two years. A secondment is possible from Intergovernmental Organisations (IGO) or national, regional or local public administrations of EU Member States or Member States of the European Free Trade Area (EFTA) and **applications must be sent by the respective Permanent Representation** (or EFTA Secretariat or IGO administration) to the following e-mail address: jobs@gsa.europa.eu.

For the application to be considered valid, it must consist of:

1. "Employer authorisation for seconded national expert candidate"
2. The candidate's "Application form"

Both forms have to be fully completed in English, signed and clearly scanned.

¹ The entry into force of the Regulation and the change of name the Agency will not affect possible employment relationships entered into by the GSA before such entry into force.

We would be grateful for your support in circulating this information within your administration as well as other bodies or institutions that might have suitable candidates for the positions.

We would like to thank you in advance for your cooperation.

Yours sincerely,

Rodrigo da Costa

Executive Director

Bruno Vermeire

Chairman of the Security Accreditation
Board for the European GNSS Systems
